WIGS NATURAL TO MEASURE PARRUCHE NATURALI SU MISURA

woman and man

Hair Trade Canada, in addition to being a leader in the manufacture and sale of hair for extensions, has within a laboratory wigs for women and men. A highly qualified laboratory, which employs staff with over thirty years experience in the production of wigs, hairpieces, prosthetics and tails anti- baldness. The wigs are made to measure, using the same natural hair color and ripple of the customer at competitive prices. The hairdressers often contact the laboratory for customers who must undergo chemotherapy or who are affected by alopecia, and therefore need a wig that is as natural as possible : so as to allow the customer to see each other again with the hair, without distorting its image and thus preventing further trauma.

It is the habit of Hair Trade Italy follow the hairdresser for taking measurements of the cap comes in several types, so that it can be anatomically and adhere well to the skin of the client, as well as explain the proper maintenance of the wig. Hair Trade Canada provides technical assistance necessary for the maintenance of the product and is always available to provide information.
