RELAX SILENT TECHNOLOGY - LONG LIFE

extremely durable, lightweight, powerful and quiet

Technology RELAX SILENT TECHNOLOGY reduces noise of professional hair dryers up to 64 dB without compromising on performance.

- accurate aerodynamic design of the route;
- Special turbo-fan;
- no vibration;
- powerful brushless motor: life expectancy of over 12000 hours, 10 times more than a regular professional hair dryer;
- eco-friendly: fuel economy. At the first speed consumes only high performance professional hair dryer from 1400 W; super powerful, the second speed and provides pressure and temperature at the top of 2300 W;
- the lightest: only 440 g.-less stress to the joints;
- electromagnetic emissions reduced by 97% compared to traditional hair dryer;
- Tourmaline coated grid: ionizes the air making the hair more vivid and bright;
- performance in air flow, pressure and temperature.
