DAINAMI DAINAMI

energizing to cysteamine at pH 6.8 acid
New energizing system that gives volume soft and elastic. A cysteamine acts gently on the molecular structure of the hair providing sweetness, firmness and the movement of a wave perfectly healthy and natural.
At acid pH 6.8, without thioglycolic acid or ammonia, which guarantees results remain unaltered over time respecting the structure of the hair. A single force, suitable for all hair types.

method of use : to keep the hair moist for the duration of the application by continuing to spray water according to the following scheme:
- Natural hair : slightly damp
- Colored hair : very humid
- Very sensitized hair : wet (not soaked)

box: single-dose kit that contains:
1 energizing lotion : 100 ml bottle dispenser
1 fixer : 100 ml dispenser bottle
