ARGAN and BEADS capillary rejuvenation

Argan Oil or l' Moroccan Gold, extracted from the fruit of the African tree, or Tree of Life, born in the South West of Morocco, in an area that UNESCO has declared a Biosphere natural reserve. Appreciated for centuries by Berber women for emollient, moisturizing and firming, Argan Oil is similar to a real face-lift to the hair due to the presence of Vitamin E, Omega 6, essential fatty acids and phytosterols, as oleic acid and linoleic acid. Soco has created two products ARGAN ONE SO and SO ONE Keratin to revitalize, nourish, untangle and make any kind of strong and shiny hair.

box: ARGAN BEADS dropper bottle and spray bottle
