SILK EXTREME LINE PIASTRA SILK

Silk is the plate with innovative technology NSTS (Nano Silk Tape Solution). Exceptional antistatic function generated by combined use of special carbon particles and Nano Tourmaline composite plates in SILK. Safeguarding the health of the hair. While the plates made of aluminium, in relation to its high capacity to reflect and transmit the heat, damage the structure of the hair, SILK, plates by virtue of special treatment to which they are subjected and the mix of materials, (Teflon, Nano Tourmaline, carbon and silicon) have the prerogative is also at high temperatures which can reach, to preserve the hair humidity substantially reducing stress, giving shine and body. Extreme smoothness. The combined use of Silicone and Teflon make extremely soft and sliding plate on the hair. The surface is smooth as silk, grants to the customer a high comfort during treatment and enhances the performance of the designer.

Features:

- 230° as maximum temperature;
- Metal Ceramic Heater for fast temperature is reached;
- NSTS-Nano Silk Tape Solution, innovative plates;
- LCD Display for digital temperature control;
- 11 different temperature settings from 130° c to 230°;
- Floating System, extremely folding plates;
- automatic shut-off function;
- extra long cable;
- 360° swivel cord;
- 45 watt power; voltage 100-240 V; frequency 50/60 Hz.
