MAGIC WAVE

waving iron

MAGIC WAVE waving iron ceramic coated Ion & Tourmaline enables fast wide waves , soft and shiny. The special Ceramic Ion & Tourmaline gives the ionizing property , iron that gives the hair softness and extreme shine. The mineral Tourmaline eliminates static electricity and makes hair shiny and healthy. Thanks to the resistance MCH Technology , that allows you to quickly reach up to 230° C the temperature is kept constant for the duration of use , by reducing the times of operation and energy consumption for highly professional results from a beauty salon.

Features:

- Ion Ceramic plates & Tourmaline;
- ionising properties;
- resistance MCH Technology: homogeneous and constant heat;
- ergonomic design is light and easy to handle.
