UPGRADE NEWAVE

Wave upon wave

It is the innovative undulating irons triple titanium ceramic-coated tourmaline. The double-strength ceramic MCH allows the iron UPGRADE to achieve the desired temperature within seconds and to have an even distribution of heat. The irons NEWAVE have a control system for the management of the constant temperature up to 230 degrees, thanks to the digital display of the thermostat. Iron is available in two versions NEWAVE NEWAVE big wave and medium wave, in order to choose the depth of the wave, and we want to be different every night, and ordered as a classic Hollywood diva of the '40s, or modern, chic and elegant as a woman today.

Features:

- Titanium tubes coated with ceramic tourmaline for a more even distribution of heat ;
- Double strength ceramic MCH allowing the undulating iron Newave to reach the desired temperature in a few seconds ;
- Digital display with adjustable thermostat up to 230 degrees ;
- The control system for the management of the constant temperature during use.
