ESIGENT gel dye - Neutral pH

ESIGENT is a nutritious gel dye at neutral pH by gentle formula as it contains no parafenilendiammina, resorcinol, hydrogen peroxide and ammonia. Has a dual action on the hair : provides reflection on natural hair and intensifies the reflections of colored hair and highlights. Enriched with Keratin, the main protein that makes up hair recognized for its ricostruttrici acts in depth on sedimentandosi keratin chains within the structure of the hair by repairing the damaged permanently. In addition, thanks to the conditioning agents such as water Pomegranate, The Green and Red Grapes content in a new recondition deep even the most stressed hair from harsh chemicals and atmospheric ones.

method of use : can be applied to dry or towel-dried hair, in which case do preliminary shampoo and dab your hair with a towel to remove excess water. Wear disposable gloves during preparation, application and rinsing of the product. Apply the product on the hair with a brush, starting possibly from areas with white hair. Massage gently to evenly distribute the color. Do not use metal bowls. Leave on for 20-30 minutes. In the case of bleached hair permed or the shutter speed varies depending on the receptivity of the hair. Expired the time of installation, proceed with the Nutricolor Line protoplasmina Shampoo and rinse thoroughly to remove any traces of dye until the water will not be clear. A thorough rinsing will ensure optimum durability of the color.

box: spout applicator bottle with 150 ml.
