### STEM- C adjuvant treatment

based active plant stem cells grape

#### STEM- C shampoo

STEM- C Fall Shampoo cleanses hair and scalp. It is based on active plant stem cells Grape that protect the skin from irritation, frequently present during the fall.

**method of use** : Apply shampoo to wet hair, gently emulsify, rinse and repeat, leaving it for 5 minutes. After that, rinse well and apply lotion prior STEM -C. Proceed to dry.

**package** : 250 ml tube.

#### STEM- C vial

The vial FALL STEM- C uses the technology of active plant stem cells Grapes, which act on free radicals by donating a capillary bulb healthier and younger.

The content Follucusan acts directly on the hair bulb, making it more often and firmly so that the microcirculation blood injections proper nourishment to the hair bulb. This is what happens using the vial STEM- C, which is why it is important to follow the recommended conditions of use from Emmediciotto to get excellent results with less time. At the same time, however, we must follow the rules of the body: take vitamins when the body requires them is important. Follow a daily treatment for a specific time. This formula works well for the body and has excellent results for the hair, which is why laboratories Emmediciotto recommend to follow the application system for quick and effective results during both the fall and in the preventive phase in the phase energizing scalp.

**method of use** : After washing hair with STEM- C anti - hair loss shampoo, apply the ampoule STEM- C, separating hair with your fingers and apply it directly on the root. A slight pressure with your fingers in a circular fashion on the scalp, so as to perform a shiatsu massage. Tips :

- 1) in the case of a considerable hair is advisable to use every day for about a month.
- 2) to prevent hair loss is recommended to apply at least 3 times a week.
- 3 °) for tired hair, thin and brittle, we recommend using at least 2 times a week for a long time (great for energizing hair and scalp).
