### SPECIAL PROTOPLASMINA KERAFARM deep reconstruction system of capillary fibre during service

Allows you to change the look whenever you want. With KERAFARM all technical services now can be run safely. is the new ideal reconstruction system for limp hair due to continuous exposure to chemicals such as discoloration or pickling, colouring, perms, hair straightening or derived heat from the plate and various mechanical stress.

Its molecular composition with natural active, reconnect the bridges of sulfur (disulfide bonds) broken inside the hair. The use of KERAFARM for each treatment helps to give the hair a State of optimal health as well 18-enriched amino acid and hyaluronic acid. Protects hair from breakage during lightening, technical services of discoloration and staining, dramatically reduces hair breakage and helps maintain the quality of the hair during the chemical process. Guarantees incredible quality of the hair without any variation of the same color, no change in the service application, no changes in the shutter speed. KERAFARM can be used to treat hair well without the need to combine it with technical treatments of color or discoloration or ironing.

Coloring:

is fully compatible with all professional coloring systems, does not change the way people work and adds no color and bleaching traditional ride to work.

SMOOTH or curly

Multiplies the keratinous ties, improves and strengthens the sulphur bridges damaged during the previous treatment, improves visibly and instantly the quality and structure of the hair making them look smooth and silky to the touch. The product can be combined with iron, but has no power to it or a posteriori of treatment to improve the final result.

NEW VITALITY TO THE HAIR

KERAFARM gives you the opportunity to change the look of your customers when and how you want in complete safety and with absolute freedom of style and colours. The treatment consists of two stages, the N° 1 and N° 2 more specific Shampoo.
