**MICROSCOPE FOR PROFESSIONAL HAIRDRESSERS
MICROSCOPIO PROFESSIONALE PER PARRUCCHIERI**

long time now, the hairstyle is not only synonymous with fashion and beauty, but also and above all a very good state of health of the hair. Skin and hair reach full bloom only when they are healthy : this implies a necessary professional growth of the industry to ensure that enrich their education at least the rudiments of Trichology. Why would a customer acquires total trust in relation to the hairdresser, you must demonstrate that they are competent, reliable, and equipped with the appropriate tools to diagnose and treat simple problems affecting the skin and hair.

born for this purpose MICROSCOPE EXPERIENCE: micro camera designed to accompany her during the day at the hairdresser salon. It is a device of observation and analysis that allows capturing photos and video and display them in real time on common -pc monitor during use. It also allows measurements to be made.

LIGHT SOURCE WITH LED MICROSCOPE PROFESSIONAL is lightweight and easy to handle and is equipped with a built-in LED light source that is powered through the USB cable. The image capture can be done via mouse or by using the Microtouch on the handle of the MICROSCOPE.

ZOOM

The magnification achieved (up to 200 px), allows you to display in a convenient and clear the surface of the skin, making it obvious to the professional first and foremost, but also to the customer, if there are any problems which act as dandruff, seborrhea, pronounced hair loss. Also the analysis of hair can benefit from the use of MICROSCOPE since the magnification is able to highlight damage to the cuticle. The cuticle is the outer layer of the

hair, his jacket, given the location in which it is located, is the first to be damaged when the hair is ill-treated with shampoos inappropriate, aggressive treatments, excessive brushing, etc..

USING THE KIT

Your use of the MICROSCOPE PROFESSIONAL allow you to show the customer the area on which to intervene, making him aware of the opportunity to treatments and cures. Will simplify the task dell'Hairstylist in the orientation of the customer to use and purchase of specific products.
