SENSOR ONE UP

UV lamp with electronic sensor of Star and Stop

The innovative UV lamp SENSOR ONE UP, thanks to the electronic sensor lets you optimize the time at work, providing greater savings on fuel consumption. It is really simple and completely automated. The electronic timer with digital display, allows you to pre- set the duration of the operation. The lamp will turn on only when you enter the hand inside and turn off when the same will be removed.

Features:

- Electronic timer with digital display
- ability to pre set the duration of the operation in 30/60/90/120/240/300 secondi
- 4 UV bulbs for a total of 36 watts
