IMOX - OXIDIZING EMULSION CREAM

IMOX - emulsione ossidante in crema

Imox was created to be used only in a mixture with Imajs of Creattiva with the aim of ensuring optimal color results. Its formula is enriched with treating and protective components, ensuring a more gentle on skin and hair. Create a smooth and creamy mixture does not drip. Allows easy application and adhesion to the hair by optimizing the process of oxidation and bleaching. Available in versions: 20 - 30 - 40 volumes.

method of use : find the height of tone to be applied and the volume of the oxidant Imox to be used according to the Selection Table Imajs. Choose the desired reflection following the Gamma Tone Imajs. Mix ratio 1:1.5

box: 1000 ml bottle
